"Once upon a time, there lived a nameless monster. He was dying to have a name.

So, he made up his mind to set out on a journey to look for a name." Why did the strange Czech children's story upset Johan like that? Can we possibly find in the book any clue to the mystery of his birth? A mystery begets another mystery!

Tenma, all set to assassinate Johan, is lying in wait for him in the university library.

What will Johan think when he knows
Tenma's high-performance rifle is aimed at him?
Finally, will Tenma be released from his long fugitive life?
This story is rushing to a climax!!
